

CESTAL00055

Profilo a parete ideato per la realizzazione di golette luminose raso parete. La struttura del profilo consente la posa e la rasatura delle lastre in cartongesso a soffitto e a parete ed il successivo montaggio con sistema ad incastro della sorgente luminosa garantendo la massima pulizia estetica semplificando al tempo stesso l'installazione.

Wall profile designed for the realization of hidden luminous lines. The structure of the profile allows the laying and the shaving of the plasterboard slabs on the ceiling and on the wall and the subsequent assembly with an interlocking system of the light source ensuring maximum aesthetic cleanliness while simplifying installation.
