

CESTAL00114

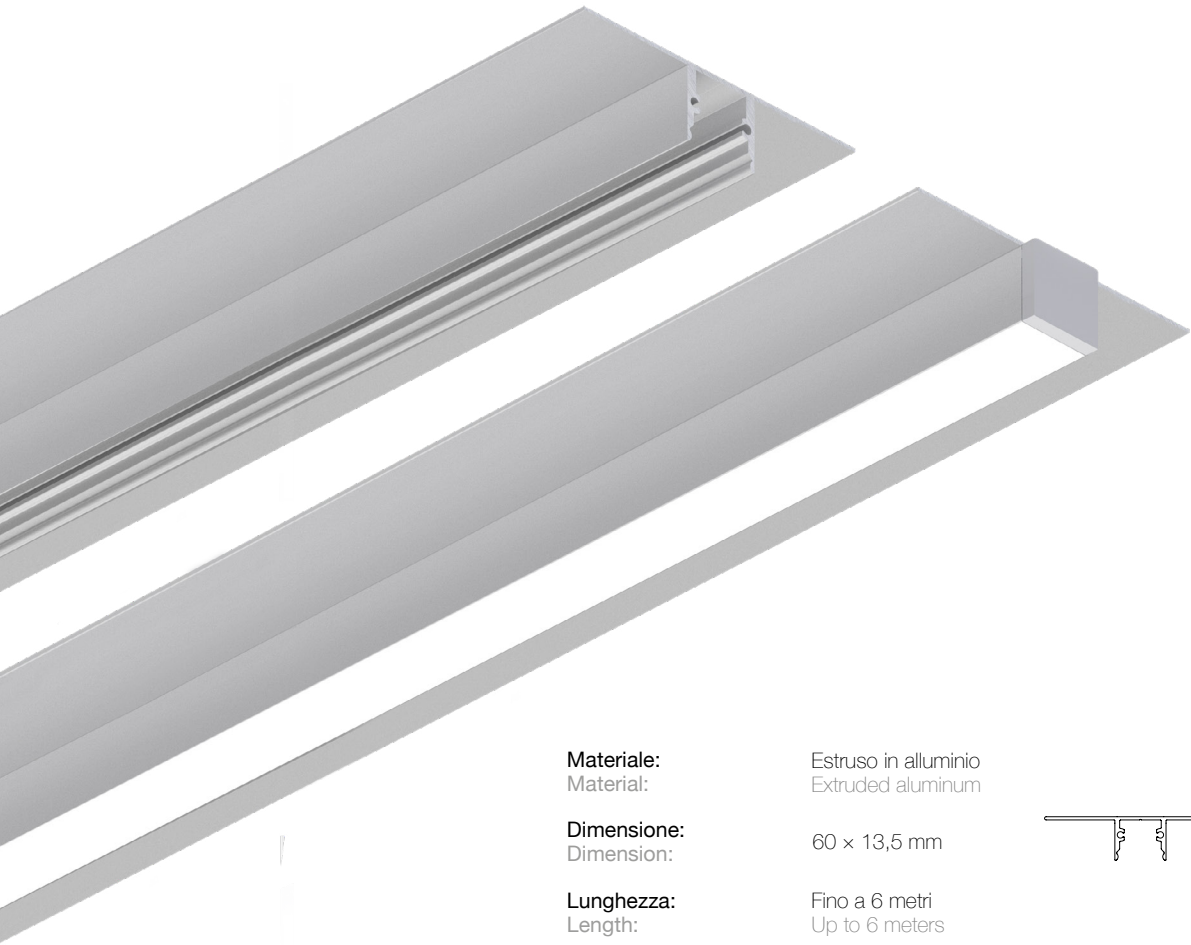

Profili progettati per essere integrato all'interno di controsoffitti e contropareti andando a rendere possibile la realizzazione di linee luminose restando nello spessore della lastra di cartongesso, questo permette un'installazione agevolata anche laddove il cartongesso è già stato posato. E' comodamente installabile senza intervenire sulla struttura pre-esistente grazie alla sua profondità di soli 13,5 mm. Disponibile in larghezze da 16mm e 24,5mm.

Profiles designed to be integrated into false ceilings and false walls making it possible to create light lines while remaining in the thickness of the plasterboard, allowing easier installation even where the plasterboard has already been laid. It can be pre-installed without intervening on the existing structure thanks to its depth of only 13.5 mm. Available in 16mm and 24.5mm widths.
